2 August 1961

CONTACT REPORT

FLEMING · [   ]

Brussels - 1500-1655 hours.

1. **UJBRINT** - The following points came up:

    A. On 17 May UJBRUG wrote a letter to the Soviets (FLEMING did not know the letter box used by UJBRUG) indicating that he still was interested in contact and wondered what was going on. UJBRUG indicated in his letter that he would be happy to meet the Soviets anywhere other than France - because his wartime activities in France might get him into a jam.

    B. The RIS replied in a letter that first reached UPHILL headquarters on 31 July. The RIS said they had written several times to UJBRUG, and that he apparently had not received the letters and said they would be interested in meeting him in Paris. (This, in spite of the fact that UJBRUG specifically requested that the meeting be anywhere outside of France and Germany.)

    C. FLEMING said it was planned that UJBRUG would write a return letter to the Soviets saying he refused to go to France, but still would be prepared to meet the Soviets anywhere else. The letter also would give the Soviets a new accommodation address to use in writing to UJBRUG:

        True name, Postfach München 25, Am Harras 2, Pasing-West

2. **UJBRINT/UJBRUG/info from CALLIKAK** [   ] asked for FLEMING's interpretation of a conversation in which CALLIKAK's name appeared in connection with reference to UJBRUG. (Conversation between UJBROWSY and a woman in his office.) It appeared that UJBROWSY is indicating that the probable reason the RIS wanted to meet UJBRUG in Paris was that they probably also would be meeting GANGLNIN there at the Industrial Fair - as they had met him in London.

3. **UJBROWSY/UJBRIM/UJBRUG/CALLIKAK information** - The same CALLIKAK intercept contained an apparent cryptic conversation between UJBROWSY and UJBRIM in which UJBROWSY said that something had to be done about UJBRUG. FLEMING said he would pay close attention to this part of the tape.
